

ST. MARTIN PARISH SCHOOL DISTRICT
TECHNOLOGY ACCEPTABLE USE and INTERNET SAFETY POLICY
For Students

The St. Martin Parish School District offers technology access and use for students use. This document is the Acceptable Use Policy for student use of technology, Internet, and technological resources. This Internet system has been established for a limited educational purpose to include classroom activities, career development, and limited high-quality, self-discovery activities which enhance learning and teaching. It has not been established as a public access or public forum. The St. Martin Parish School Board has the right to place reasonable restrictions on the material accessed or posted, require the training needed before a student is allowed to use the system, and enforce all rules set forth in the school code and the laws of the state. Further, students may not use this system for commercial purposes to offer, provide, or purchase products or services through the system or use the system for political lobbying. Access to the technology systems and resources is available through school only with permission of the principal or his or her designee and the student's parent(s). Access to technology is a privilege accorded to students who agree, along with their parents/guardian, to abide by the Acceptable Use Policy.

It is the policy of the St. Martin Parish School Board to: (a) prevent user access over its technology network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access and other unlawful online activity, network activity and/or use of technology resources and systems; (c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)], Federal and state laws, including, but not limited to, Louisiana's Cyberbullying laws. Students found in violation of this policy may have these privileges revoked along with other suitable penalties in accordance with the St. Martin Parish School System Discipline Policy.

Key terms as defined in the Children's Internet Protection Act (CIPA).

Specifically, as required by the Children's Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors. What is possible?

Access to the Internet will enable students to explore thousands of libraries, databases, museums, and other repositories of information. Families should be aware that the school and District web sites may contain links that are maintained and controlled by third parties. Because some material accessible via the Internet may contain items that are illegal, defamatory, inaccurate, or potentially offensive, District personnel will make every effort to filter, screen, and research links for appropriateness. St. Martin Parish School District is not responsible for the content in the linked site, any link contained within the linked site, or any changes or update to the linked site that changes its appropriateness.

We believe that the benefits to students from access to the Internet in the form of information resources and opportunities for collaboration exceed the disadvantages. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. Therefore, we support and respect each family's right to decide whether or not to allow access.

What is expected?

It is expected that users will comply with District standards and the specific rules set forth below. Students are responsible for appropriate behavior on the school's computer network just as they are in a classroom or on a school playground. Communications on the network are often public in nature. General school rules for behavior and communications apply. The user is personally responsible for his/her actions in accessing and utilizing the school's computer resources. The students are advised never to access, keep, or send anything that they would not want their parents/guardian or teachers to see. The use of the network is a privilege, not a right, and may be revoked if abused.

What are the rules?
